

e-News! Bulletin: Log-on to www.nc4ea.org and See How We Have Grown

NCEA is pleased to reveal an all new website providing expanded resources for educators, policymakers, and school communities to grow opportunities for greater student success.

For more than a decade, NCEA has promoted the use of data and effective practices to generate better outcomes for students. Joining ACT in 2007 afforded NCEA the ability to dramatically extend our capacity to improve schools and increase College and Career Readiness (CCR) among students in K-12 education. We have recently updated our website to reflect our progress and provide site visitors with our latest research findings, educator services, and tools for parents and communities.

New www.nc4ea.org features:

- **Research Areas of Focus:** Findings on important K-12 topics including [Goals and Standards](#), [Closing Gaps](#), [Higher Performers](#), [Core Practice Framework](#), and [Building Capacity](#).
- **New and Improved Initiatives:** Latest [Just for the Kids](#) higher performing school results and more about [CoreWork™ | Diagnostics](#), an NCEA|ACT online service for K-12 educators.
- **Navigation Tools with You in Mind:** Special pages for [educators](#), [policymakers](#), and [parents/community](#) with direct links to selected resources.

Did you know?

The first *Just for the Kids Elementary School Reports* were made available to educators online in 1998.

Learn more [About Us](#) through our interactive [History](#) timeline.
