

What is CoreWork?

CoreWork Diagnostics is a research-based online service developed by NCEA and ACT for K-12 educators to strengthen and sustain teaching and learning improvement. Through this new service, educators have continuous access to interactive data and tools that help them analyze student performance, study educator practices, and inform improvement planning.

What CoreWork Diagnostics Users Are Saying...

“*CoreWork* has fundamentally changed the way we communicate.” —Administrator

“*CoreWork Diagnostics* has motivated us to make the shift beyond focusing on passing rates.” —Principal

“The *CoreWork* website is so user friendly. The technology makes it real-time professional development.” —Administrator

“Our district stresses rigor, rigor, rigor! *CoreWork* puts a face on the word and shows how to implement change.” —Teacher

“Using *CoreWork* has made us better at setting performance targets for students and teachers.” —Teacher
